There may be times when teachers in the school use physical intervention in respect of good teaching (adjusting arm lines, for example). It must be understood by all parents and guardians of students that this is deemed necessary in the safe and effective teaching of dance technique.

The teachers monitor the level of physical correction on a regular basis. If a parent/guardian is unhappy with this teaching technique, their concerns must be raised with the Principal immediately. The Principal will make a record of the concerns and will ensure that appropriate action is taken where necessary.
